

Servants Health Centre

We are here to serve

100 Princes St, Dunedin

December 2009

Dear Friends and Supporters of the Servants Health Centre,

We are at an exciting stage with the Health Centre as we come close to opening the doors.

Developments

the premises have been fitted out with plumbing, benches, and electrical work, some new carpet.

signs have been installed.

computers (which are being donated)

many policies have been developed by people volunteering their time and skills

We have had an offer of a welcome mural on the entrance wall.

Almost fulltime cover for health workers.

Continuing Needs

- curtains, medical stock(some being donated)

phone system

two chairs have been donated but we need more chairs for meeting room

café tables and chairs

although we almost have full time cover for health workers, it would be great to have more people - this includes doctors, nurses, receptionists and helpers.

There has been good interest and support from churches we have visited and some wonderful donations and also support from other charitable trusts, but we have \$30,000 to pay this month and only \$15,000 in the bank. Please contact John if you would like to donate or even loan us some money, interest free for a year or more. Donations can be made to the Servants Health Centre Trust, Kiwibank 38-9009-0573316-00. Please include your name and phone number in the reference fields so we can contact you and provide a receipt. Thank you.

We are likely to open on a part-time basis early in the New Year, with hours increasing as more workers are available. All going to plan, we are planning the official Opening Day celebrations beginning of February.

Wishing you a safe Festive Season.
