Other updates

Starting up since middle of January some people have been seen in the clinic. This has allowed easing in with processes and work flow and getting members of the team warmed up with the new environment, computers and paper work as well.

Funding- grant applications were successful from the Otago Community Trust and the Alexander McMillan Trust to assist in the setting up costs. This has made an important difference to meeting some of our early expenditure and we are very grateful for this. More lies ahead so please consider helping as you can.

Please contact us if you would like to donate or even loan us some money, interest free for a year or more. Servants Health Center has charitable status for tax purposes. Donations can be made directly electronically to the:

Servants Health Centre Trust, Kiwibank 38-9009-0573316-00

Please include your name and phone number in the reference fields so we can contact you and provide a receipt. Thank you.

Recruitment. There are still a couple of sessions to be filled during the regular week for general practitioners. This is to ensure that there is medical cover for the whole week. Please pray that offers for this will happen soon.

Volunteers in all other areas also continue to be needed – and prayed for!

Vouchers There have been generous offers to provide professional health care and other support to clients attending Servants Health Center which is more appropriately provided in other facilities (because of special equipment, skills or processes). The team at the center would be able to issue a limited number of vouchers to those clients with particular need for these and which they might otherwise not be able to access. This is an exciting concept which we are exploring further in the frame work of Servants.
